Text:

This is Taha. He is a teenager. He is just fourteen years old. He has a big problem. He is very fat. In fact, he is obese. He weighs 73 kilogrammes. He suffers from obesity because he eats large amounts of food with a lot of sugar, fat and salt.

He always eats fast food and drinks a lot of soda. He sometimes eats between meals, some snacks like pop-corn, chocolate and sweets. He doesn't like sports exercise, but he tries to run once a week. This problem makes him feel sad. In addition to this, he can't play with his friends because of his weight, and because some students at school laugh at him.
