2- فقرة تتضمن مجموعة افكار حول:
- شخصيتي personality features
- مهنة المستقبل Dream job (carrer)

Hello all,

My name is Said. I am a 14-year-old boy from Algeria. I live with my parents and brothers in the east of Algeria, exactly in BBA. I'm a perseverant, intelligent and kind person. My mum always says that I am talkative but I don't think so. I'm not the messy type of person at all but I'm a bit nervy.

My dream is to become a pilot someday. I always imagine soaring above clouds, like a bird with freedom. Being a pilot means visiting different countries and cultures. Piloting isn't just flying; it's leading, making decisions and safely guiding hundreds of people to their destinations.

My ideal friend_صديقي المفضل

A real friend is someone who not only knows your stories but has lived them with you. I am lucky to have such a friend in my life, and I want to share a bit about this amazing person. My friend, Sarah, is one of the kindest and most supportive people I know. She is always there to listen, encourage, and make me laugh when I need it the most. Sarah has a bright and cheerful personality that makes everyone around her feel comfortable and happy. Physically, Sarah is of average height, with curly brown hair and sparkling green eyes that always show kindness. Her smile is warm and welcoming, and she dresses in a simple yet stylish way. Sarah has greatly influenced my personality. Thanks to her, I have learned to be more optimistic and confident. She taught me to face challenges with a positive attitude and never give up on my dreams. One memory I will never forget is when we joined a charity event together. We volunteered to help organize and distribute donations to those in need. Working side by side, Sarah's enthusiasm and dedication inspired me to put in my best effort. It was a rewarding experience, and sharing it with her made it even more special. I am truly grateful to have Sarah as my friend. She is not just a good friend but a real one who has lived some of my best moments with me. I hope our friendship lasts forever!

Internet_ الانترنت

Dear friends,

Internet plays an important role in our life nowadays. It has many advantages but also some disadvantages.

Firstly, it is an easy source of information (news and online classes....). Secondly, it helps to learn about other cultures (clothes, languages, hairstyles…). Thirdly, it keeps us in touch with friends and relatives living far away.

However, if it is misused, internet can be a waste of time. It can cause health problems (eyes / memory) and more importantly, it destroys moral values (bad web sites).

In my opinion, internet is a double edged sword. We should be careful when using it.

Yours faithfully, …….

Social media : Pros and Cons

محاسن و مساوئ وسائل التواصل الاجتماعي

In my opinion, social media has both pros and cons. Firstly, it helps people stay connected with friends and family, no matter where they live. It also allows users to share ideas and learn new things. Secondly, social media can be useful for promoting businesses and spreading important messages quickly. Moreover, it helps people meet new friends and join communities with similar interests. However, there are also some disadvantages. Spending too much time on social media can lead to addiction and reduce real-life interactions. Additionally, users may face cyberbullying or come across false information, which can affect their mental health. Finally, privacy is a concern as personal data can be shared without permission. Therefore, using social media wisely is essential.

Cultural globalization

Cultural globalization is the transmission of ideas, customs and values around the world.
Some people think that cultural globalization helps people to live in one big nation and expand their culture. Some others think that it is a threat and new kind or colonialism. They say that it destroys one's culture, traditions and values.
In my opinion, cultural globalization helps us to know other cultures and be open-minded but we must be aware of our national identity and values.

Helping hands for Palestine_مساعدة أطفال غزة

Many people in Palestine struggle with hunger and homelessness. There are ways we can help! First, we should donate food. Food banks and charities in Palestine provide meals to those in need. You can donate canned food, rice, or beans. If you live far away, some charities allow online donations to purchase food. Second, we should help with shelter. Organizations build homes for the homeless. You can donate money to support these projects. Even small donations can make a big difference! Finally, we should raise awareness. Talk to your friends and family about the situation in Palestine. Sharing information helps others understand how they can help too. By working together, we can make a positive impact on the lives of those in need in Palestine.
